

● AFRICA WEB3 INSTITUTE

Policy. Research. Market **Infrastructure.**

Driving digital asset policy, regulatory frameworks, and market infrastructure for Africa's Web3 economy.

Who we are

AWI is an independent policy, research, and capacity-building organisation focused on blockchain technology, digital assets, and Africa's economic transformation — bridging regulatory policy, financial infrastructure, and cross-border trade.

MISSION

To advance the responsible adoption of blockchain and digital assets through policy development, research, and institutional education.

VISION

To position Africa as a global leader in sovereign digital financial infrastructure.

KEY THEMES WE COVER

Stablecoins & Monetary Sovereignty

AfCFTA & Blockchain Integration

Digital Asset Regulation

RWA Tokenisation

Web3 Financial Inclusion

Cross-Border Payments

Crypto Compliance

[POLICY & REGULATION]

Frameworks for regulators

Digital assets and VASP(Virtual Asset Service Provider) compliance frameworks for regulators and policymakers.

[RESEARCH]

Evidence across markets

Stablecoins, Real-World Asset (RWA) tokenisation, and cross-border payment systems across African markets.

[EDUCATION]

Capacity building

Tailored programmes for regulators, journalists, and institutions navigating digital asset policy.

[ECOSYSTEM]

Convening leadership

High-level convenings and strategic partnerships connecting policymakers and industry leaders.

Flagship initiatives

A portfolio of recurring research products and convenings that track, benchmark, and shape Africa's Web3 policy landscape.

[18+]

Countries tracked in the Policy & Innovation Index

[10+]

Regulators & institutions engaged to date

[20]

Journalist trained through VASP workshops

MONTHLY
REPORT

African Stablecoin Adoption Report (MASAR)

Monthly data and analysis on regional stablecoin trends across African markets.

BENCHMARK
INDEX

Africa Web3 Policy & Innovation Index

Benchmarking regulatory progress and innovation readiness across the continent.

CLOSED-DOOR
DIALOGUE

Web3 Policy Roundtables

Closed-door dialogues between industry leaders and policymakers on emerging regulatory questions.

TRAINING

Journalists' VASP Workshop

Professional training programme on digital asset reporting for working journalists.

QUARTERLY
REPORT

State of Web3 Africa

Quarterly reports tracking regulatory, market, and adoption developments across the region.

MAPPING

African RWA Opportunity Map

Africa's Tokenizable Intelligence Mapping—identifying real-world asset tokenisation opportunities.

MAPPING

Francophone Africa Web3 Ecosystem Map

A dedicated ecosystem map tracking Web3 development across Francophone African markets.

Media services

AWI works directly with journalists, broadcasters, and editorial teams covering Africa's digital asset landscape.

01

Expert commentary & analysis

On-record analysis of policy developments, market shifts, and regulatory news as they break.

02

Broadcast & print interviews

Spokes people available for television, radio, and print interviews on short notice.

03

Op-eds & thought leadership

By lined pieces on stablecoins, tokenisation, and digital asset regulation for partner outlets.

04

Keynote speaking engagements

Conference and panel participation on Web3 policy and Africa's digital economy.

05

Policy briefings

Closed briefings for editorial teams ahead of major regulatory announcements or reports.

06

Data & research access

Early access to MASAR and Policy & Innovation Index findings for accredited media partners.

Let's shape the future of Africa's digital economy.

An independent African policy and research organisation dedicated to blockchain, digital assets, and digital economic infrastructure—helping shape a sovereign and innovative digital future for Africa.
